1. Uvod

Jobboard je platforma za oglase za posao, namenjena za radnike i kompanije. Radnik se registruje ostavi potrebne podatke, među kojima je i cv, i može da počne da se prijavljuje na poslove koje su postavile kompanije. Kada se kompanija registruje može početi sa objavljivanjem poslova. Omogućen je kompletan uvid u sve prijave na jednom mestu i mogu odabrati radnika koji im najviše odgovara listanjem svih prijava i pregleda korisničkih podataka.

1.1 Korišćeni programski jezici i tehnologije

HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, MySQL

Okruženje u kome je pisan kod je Visual Studio Code

1.2 Template

Template je preuzet sa <https://colorlib.com/preview/#jobboard2>, uz dosta mojih ispravki prilagođenih mojim funkcionalnostima. Sajt je responsive.

Unutar sajta nalazi se admin panel, čiji je template preuzet sa bootstrapovogog sajta i prilagođen je potrebama ovog sajta.

1.3 Funkcionalnosti sajta

-Registracija - Kada korisnik, ukoliko traži posao, prvi put dođe na sajt potrebno je da se registruje kako bi mu bilo omogućeno prijavljivanje na posao. Ukoliko se ne registruje ili ne uloguje može samo da razgleda sve poslove. Ukoliko kompanija želi da objavljuje poslove, registruje se kao kompanija, bez registracije nije moguće objavljivanje. Omogućen je i rad sa fajlovima. Prilikom registracije firma treba da dostavi logo, dok radnik treba da postavi cv.

-Logovanje – Nakon uspešno registracije, omogućeno je logovanje. Uspešnim logovanjem setuje se sesija u kojoj se čuvaju podaci o ulogovanom korisniku(id, email, i idUloge) ovim se postiže da se u zavisnosti od uloge prikazuje prilagođen sadržaj.

-Sve forme – za registraciju, logovanje, kontakt, kompletan crud sa oglasima se validiraju i na klijentskoj i na serverskoj strani

- Realizovano je filtriranje oglasa po kategoriji, lokaciji, iskustvu i tipu posla zajedno sa pretragom po naslovu oglasa.

- Realizovano je i straničenje tako da se na jobs.php strani prikazuju po 5 oglasa po strani

- Na admin panelu, kao i na strani profile.php realizovana je upotreba ajaxa, gde se u zavisnosti na koji link iz pomoćne navigacije se kliknulo učitava sadržaj bez učitavanja cele strane.

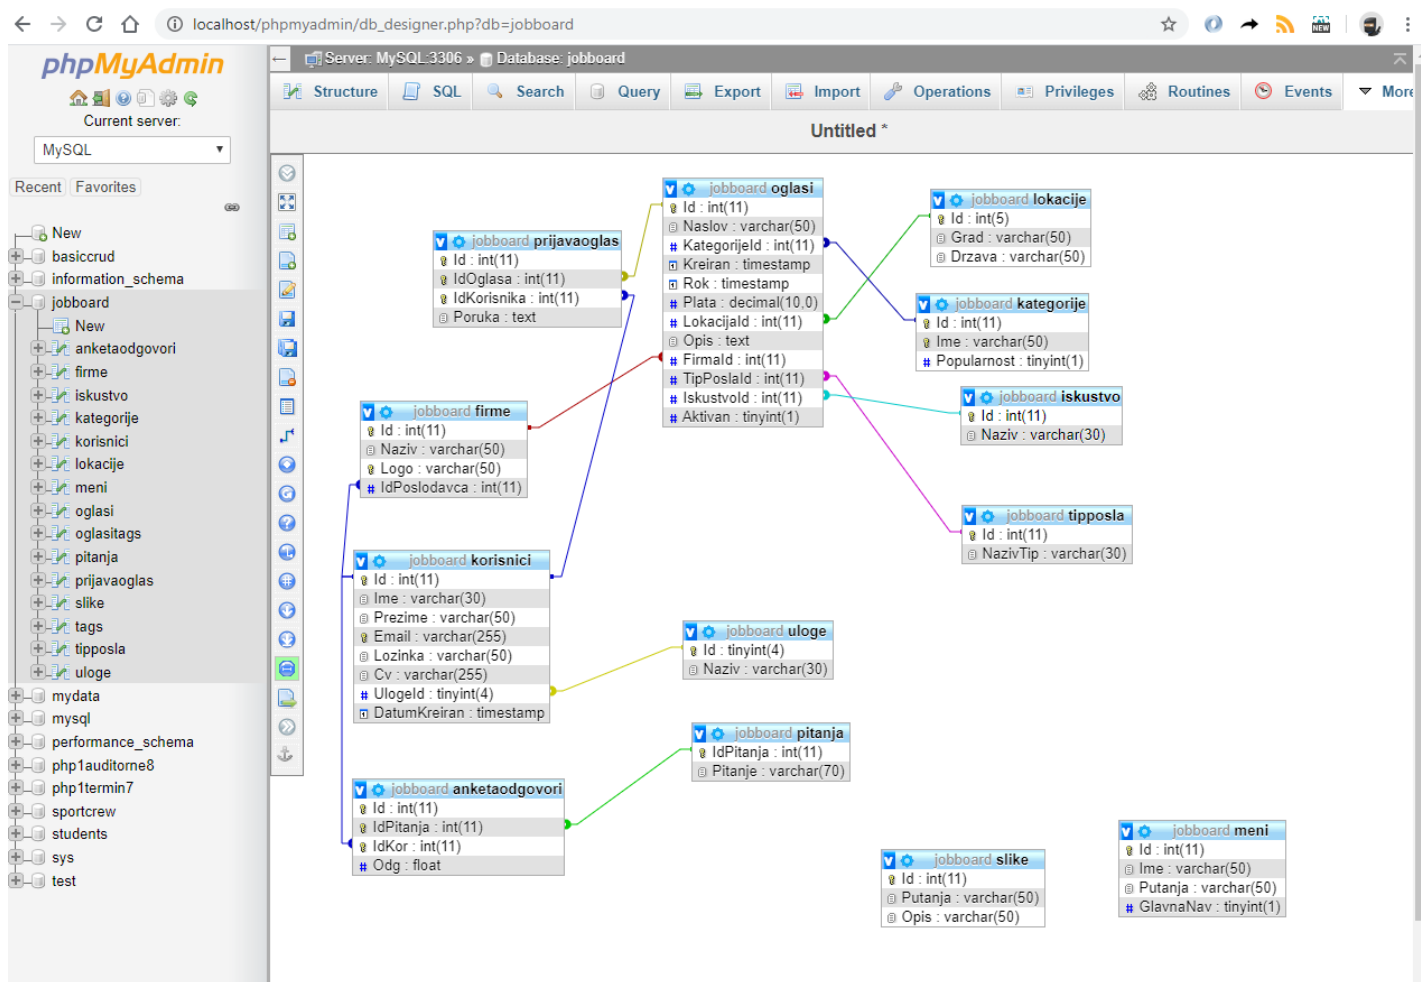

- Omogućen je sistem anketiranja samo za ulogovane korisnike i to samo jednom za svakog korisnika, I prikaz rezultata

- Klikom na svaki od poslova otvara se nova strana sa detaljima vezanim sa taj posao i sa mini formom gde ulogovani radnici mogu da se prijave. Prijava je realizovana ajaxom.

-Na strani profile u zavisnosti od uloge korisnika prikazuje se različit sadržaj. Radniku se pojavljuju svi poslovi na koje se prijavio. Kompaniji se prikazuju svi poslovi koji se postavljene, gde postoje forme za unos, editovanje i brisanje koje su kao i sve ostale forme validirane i na klijentskoj i na serverskoj strani. Takođe se prikazuje i sve prijave vezane za poslove te kompanije gde menadžeri mogu videti cv i direktno kontaktirati meglom radnika koji mu se najviše dopao: ta kontakt forma je realizovana u vidu modala kad se klikne na dugme contact

- Klikom na logout brišu se podaci iz sesije i korisnik tada može pristupiti samo delovima sajta za neautorizovane korisnike

2.2 Organizaciona šema sajta i baze podataka

Admin panel je zaseban za sebe i njemu može pristupiti samo admin. Svim ostalim stranama mogu pristupiti ostali korisnici i sve su međusobno povezane.

2.3.2 jobs.php

Na ovoj strani se iz baze učitavaju oglasi i prikazuju, omogućeno je pretraživanje po nazivu kao i filtriranje. Takođe je realizovano i straničenje gde se po strani prikazuju po 5 oglasa. Na ovoj strani takodje se prikazuje i anketa, na koju ulogovani korisnici mogu da odgovore i pogledaju rezultate posle. Klikom na view details na bilo koji oglas otvara se strana jobDetails sa informacijama o tom oglasu.

2.3.3 jobDeatils.php

Na ovoj strani se učitavaju više informacija o oglasu. Omogućeno je prijavljivanje za ulogovane radnike.

2.3.4 contact.php

Na ovoj strani je realizovana forma za contact administratora, koja je validirana i na klijentu i na serveru.

2.3.5 profile.php

Za kompaniju koristit pristupne parametre (admin@coinjar.com/ lozinka - coinJarTech) za korisnika (jordan@bulls.com / lozinka - jordan12)

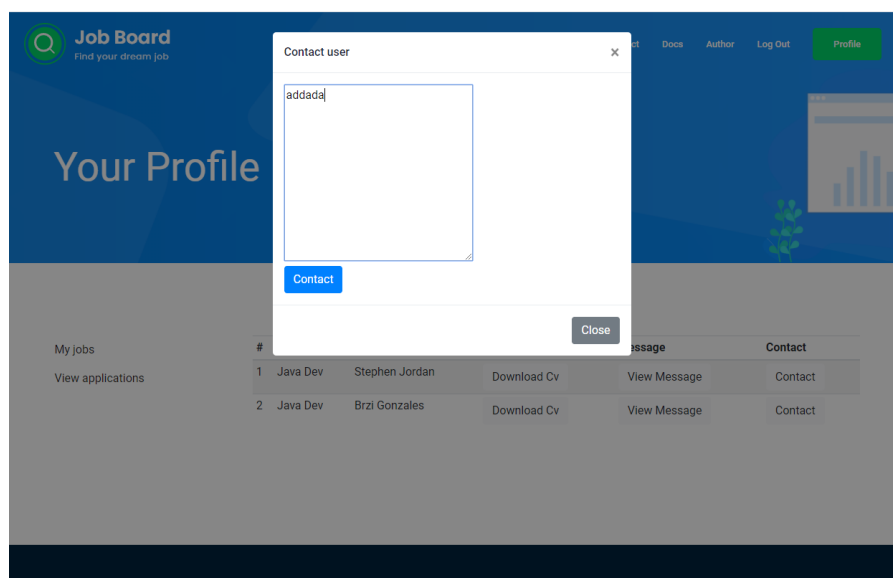

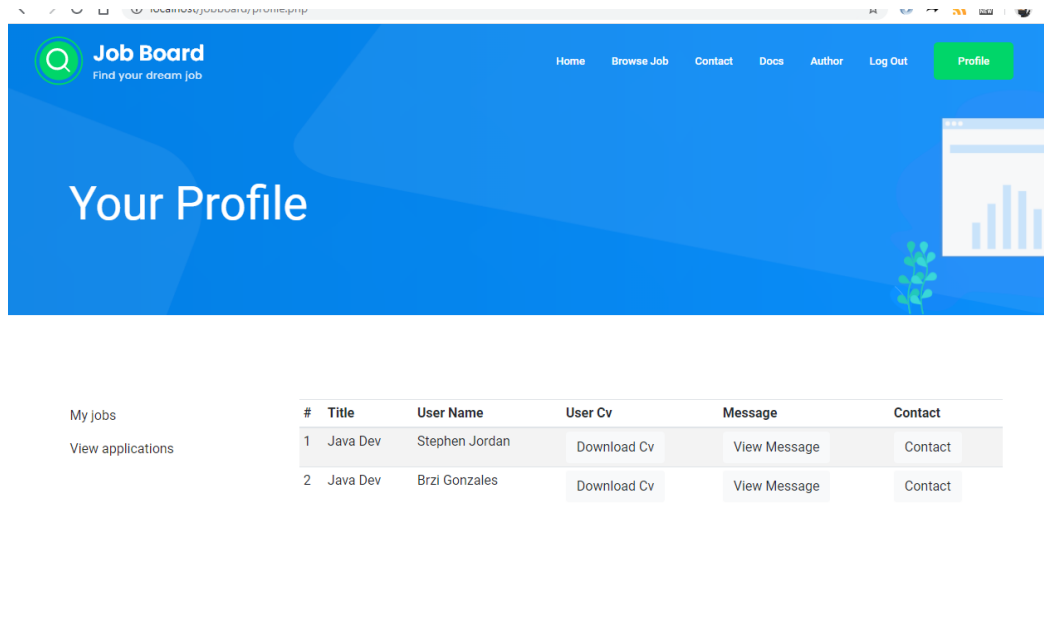

Na ovoj strani se u zavisnosti da li je korisnička uloga kao radnik ili kompanija prikazuje različit sadržaj. Ako je uloga firme prikazuju se svi poslovi, i sve prijave na te poslove. Realizovana je i forma za unos novih poslova, izmenu postojećih kao i brisanje. Ako se izabere prijava tada se izlistavaju korisnici gde menadžer može pogledati cv-jeve korisnika i direktno otvaranjem modala kontaktirati radnika. Ako je uloga korisnika njemu se izlistavaju oglasi na koje se prijavio sa mogućnosti poništavanja. Ova pomoćna navigacija realizovana je ajaxom, tako da se klikom na neku stavku menja samo centralni deo sadržaja, bez ponovnog učitavanja cele strane.

The screenshot shows a web browser window with the URL `localhost/jobboard/profile.php`. The page has a blue header with the 'Job Board' logo and navigation links: Home, Browse Job, Contact, Docs, Author, Log Out, and a green 'Profile' button. The main content area has a blue background with the text 'Your Profile' and a small bar chart. Below this, there is a section titled 'My jobs' with a link 'View applications'. A table lists three job applications:

| # | Title | Company | Category | City | Experience | Edit | Delete |
|---|-------------------|----------|----------------------|----------|------------|------|--------|
| 1 | .NET Developer | Coin Jar | Software engineering | Miami | Junior | Edit | Delete |
| 2 | Frontend engineer | Coin Jar | Web development | New York | Senior | Edit | Delete |
| 3 | Java Dev | Coin Jar | Software engineering | Boston | Medior | Edit | Delete |

At the bottom right of the table area, there is a button labeled 'Add new job'.

Klikom na dugme view message otvara se poruka koju je radnik poslao prilikom prijave. Klikom na contact otvara se modal kojim se može kontaktirati radnik slanjem email-a.

2.3.6 logout.php

Svrha ove strane brisanje sesije čime se korisnik izloguje.

2.3.7 register.php

Na ovoj strani se nalaze forme za registraciju, gde korisnik inicijalno bira da li ce da registruje kao firma ili kompanija. Forme su validirane kao i sve ostale na sa obe strane.

The screenshot shows a web page titled "Register" with a blue header. Below the header, there are two buttons: "Register as Employer" (highlighted in green) and "Register as Employee". The form includes input fields for "Company Name", "Email", "Password", and "Confirm Password". There is also a file upload section with a "Choose file" button, the text "No file chosen", and the label "Upload company logo". A blue "Submit" button is at the bottom of the form.

2.3.8 login.php

Na ovoj strani se nalazi jednostavna forma za logovanje

The screenshot shows a web page for a 'Job Board' with the tagline 'Find your dream job'. The page has a blue header with a navigation menu including 'Home', 'Browse Job', 'Contact', 'Docs', 'Author', 'Log In', and 'Register'. The main content area is white and features a large 'Log In' heading. Below the heading, there are two input fields: one labeled 'email' and another labeled 'password'. A blue 'Submit' button is positioned below the password field. The page is decorated with a small bar chart icon and a green plant icon on the right side of the header area.

2.3.9 admin panel

Pristup je dozvoljen samo korisniku sa korisničkom ulogom 1.

Ovde je omogućeno da se izvrše crud operacije nad oglasima i kategorijama. Sve forme su validirane na obe strane. Kod editovanja učitani su svi podaci koji su trenutno postavljeni i omogućeno je samo izmena onih koji su potrebni za promenu, ne učitavaju se prazne forme.

Linkovi se realizuju pomoću ajaxa, tako da se klikom na neki link menja samo centralni deo sadržaja, a ne učitavaju se nove strane
